# NATIONAL HUMAN RESOURCE CONFERENCE - 2017

21<sup>st</sup> September 2017 @ Radisson Blu Hotel, Kingdom of Bahrain

## About National HR Conference

Human Resources dedicates to support the mission of the company by expanding and improving experiences that prepare employees to thrive in a diverse environment. We are committed to promoting diversity by increasing awareness of and valuing the differences among prospective and current members.

As the Gulf region continues to grow and businesses expand, we are seeing huge competition for new talent and a focus on improvement of individuals, which in turn is putting a spot light on HR departments. Looking globally, the best HR practices are those that develop talent, growth and innovation. Increasingly, therefore, the emphasis is on executing talent, whether it is candidate sourcing, assessment or training, necessary for achieving organisational acceleration and business goals.

The impact of mega events on human resources, particularly the World Expo 2020 and FIFA World Cup 2022, will further accelerate demand for a more professional approach to people strategies and policies.

## Topics

- Recruitment and Talent Acquisition.
- Pay-for-Performance.
- Developing Human Resource practices to retain and Groom Local Talent.
- Cultivating Talents and enriching skills.
- Entrepreneurial spirit.
- Contributing visibility to strategic goals.
